Note: In order to be consistent with financial reporting principles and practices generally accepted in Japan, operating income is presented as total revenues less cost of sales and selling, general administrative expenses. The Company believes that this is useful to investors in comparing the Company's financial results with those of other Japanese companies. Under accounting principles generally accepted in the United States of America, restructuring charges, net gain or loss on sales and disposal of rental assets and other property and impairment losses for long-lived assets are included as part of operating income.

The restructuring charges mainly represent special termination benefits incurred with the reorganization of our business structures, and as the result of the Company and its subsidiaries reviewing and reshaping the business portfolio.

The Company has changed the number of employees to exclude temporary employees starting from the year ended March 31, 2010. The figure for the year ended March 31, 2009 has been restated to reflect the current year presentation.
